

# MOTHERS', BABIES', WOMEN'S HEALTH

## Inaugural Research Symposium

# Program

07:30	Check-in	
08:00 – 09:00	Welcome – <b>Prof. Vicki Clifton &amp; Prof. Sailesh Kumar</b> – Mater Research Institute-UQ	
	<b>Assoc. Professor Allison Petit</b> – Mater Research Institute-UQ	
	<b>Mr. Mark Bennett</b> – Head of Donor Programs, Mater Foundation	
	<b>A/Prof Michael Beckmann</b> – Mater Mothers' Hospital, Mater Research Institute-UQ	
	Morning Keynote – <b>Prof. Leonie Callaway</b> Royal Brisbane Clinical School, Royal Brisbane & Women's Hospital	
09:00 – 10:30	<b>Oral Abstracts Session I</b>	
	Mr. Ashley Meakin	Altered placental androgen signalling contributes to growth restricted outcomes
	Dr. Jessica Turner	The impact of low dose aspirin on adverse perinatal outcomes: a meta-analysis and meta-regression
	A/Prof. Mike Beckmann	Inpatient prostaglandin versus outpatient balloon catheter for induction of labour
	Prof. David McIntyre	Using fasting plasma glucose to identify low risk gestational diabetes
	Ms. Megan Weller	My Baby's Movements Clinical Trial
	Dr. Christine Andrews	The Safer Baby Bundle
	Dr. Siobhan Loughnan	Online intervention for perinatal grief: Brief discussion forum on program development and design
	Dr. Sophie Hickey	Indigenous Birthing in an Urban Setting study
	Dr. Shelley Wilkinson	mHealth: digital disruption in dietetics using a co-creation approach
10:30 – 11:00	<b>Coffee Break</b>	
	<b>Centre of Research Excellence in Stillbirth Poster Session</b>	
	Dr. Frances Boyle	Clinical practice guidelines for respectful and supportive perinatal bereavement care
	Dr. Aleena Wojcieszek	Better evidence for care in pregnancies after stillbirth: what next?
	Ms. Megan Weller	Decreased fetal movements: maternal and clinical responses
	Ms. Megan Weller	Improving the detection of fetal growth restriction: evaluation of user experience of an interactive educational program
	Ms. Jessica Sexton	Geospatial distribution of risk factors and causes of stillbirth
	Prof. Vicki Flenady	Protocol for implementing and evaluating a bundle of care to reduce stillbirths in Australia; The Safer Baby Bundle
Ms. Kara Warrilow	Australian women's perceptions on sleeping position in late pregnancy	
11:00 – 11:30	<b>Consumer Panel</b>	
	Ms. Sheridan Guyatt	<i>New, Effective, Systematic, Timely and INteGrated (NESTING) pregnancy, birth and parenting education</i>
11:30 – 12:30	<b>Oral Abstracts Session II</b>	
	Ms. Suzanne Bates	Mothers', Babies' and Women's Health Research Team
	Ms. Jenny Ryan	Engaging with Mater Mothers to ensure our service is responsive to their interpreting needs
	Dr. Friederike Beker	Smell and taste in neonatal intensive care - the TASTE and TASTE plus trials
	Dr. Elizabeth Hurrion	SuPreme study: investigating the neuroprotective role of sulphate among preterm babies
	Mrs Vanessa O'Connell	The impact of preterm birth: What do Australian teachers know?

We thank our sponsors:

Proudly supported by:

	Prof. John Hooper	On the shoulders of giants – developing a pipeline of PET-CT and treatment agents for ovarian cancer in the context of Mater's gynaecological oncology service
	Mr. Alex Stevenson	Calcium oscillations control lactation
12:30 – 13:15	Lunch	
13:20 – 13:30	<b>Sponsor Session</b>	
	Qiagen Fisher-Paykel	
13:30 – 14:00	<b>Rapid Fire Session</b>	
	Assoc. Prof. Paul Dawson	The requirement for sulphate to support normal brain development
	Mr. Tesfaye Mengistu	Cross-validated prediction of severe neonatal morbidity in in term singleton births
	Ms. Corrine Fiveash	Mater Queensland Family Cohort Pilot Study
	Ms. Victoria Gill	Conceptualising the uptake of Kangaroo Mother Care: A novel framework
	Mr. Tashbib Khan	Using explants to bridge the gap between bench and bedside in ovarian cancer
14:00 – 15:30	<b>Oral Abstracts Session III</b>	
	Dr. Helen Barrett	Women who develop pregnancy complications have impaired gut wall barrier function
	Mr. Thomas Mullins	The maternal gut microbiota and metabolic hormone milieu in gestational diabetes mellitus
	Dr. Erin Wilson	Learning laparoscopy through simulation: successes, failings, solutions
	Ms. Grace Boyd	Caesarean section improves neonatal outcomes from 24+0 weeks for periviable breech infants
	Ms. Hannah Beilby	Cost-effectiveness of gestational diabetes screening: application of the GeDiForCE model in Australia
	Ms. Lena Batoon	Generating animal models for post-menopausal osteoporosis and osteoporotic fractures
	Ms. Loretta Anderson	Timing of breast expression initiation in preterm mothers: A pilot randomised trial
	Dr. Zarqa Saif	A novel glucocorticoid regulated placental mechanism promoting inflammation-induced fetal growth restriction
	Ms. Nicole Robertson	Maternal self-reported supine going-to-sleep position is associated with fetoplacental Doppler changes
15:30 – 16:00	<b>Afternoon Tea</b>	<b>Poster Abstracts Session</b>
	Ms. Alison Lee-Tannock	Evaluation of Fetal Cardiac Function in pregnancies complicated by maternal diabetes and obesity
	Ms. Ann Lancaster	Evaluation of Circle of Security for Parents Program (COS-P) at Mater Mothers Hospital
	Ms. Ellen Tejo	Mysteries of Glycogen in the Periconceptional Ethanol-Exposed Pregnancies
	Mr. Gautam Dagur	Congenital Heart Disease and Neurodevelopmental Disability: A Conceptual Framework
	Ms. Ranita Atcheson	CDO1: a placental gene with potential clinical relevance.
	Ms. Stephanie Barwick Dr. Sarah Janssens	Interprofessional Leadership in Maternity Emergencies
	Ms. Melissa Gilroy	Malnutrition one day prevalence audit – NCCU
	Ms. Denise Page	Pasteurised Donor Human Milk (PDHM) in the extremely low birthweight (ELBW)
16:00 – 17:00	Keynote Speaker – <b>Prof. Craig Pennell</b> – The University of Newcastle <i>A life course Health approach to the prevention of mental health disorders</i>	
17:00	Closing Remarks – Vicki/Sailesh	
17:00 – 19:00	Celebrations at C'est Bon
